Advocating for Our  
Children and Youth

[www.promisethechildren.org](http://www.promisethechildren.org)

## OUR EVOLUTION AND BIG WINS

Promise the Children was established in 1996 after a call to rally by the Unitarian Universalist Service Committee.

Today we focus on local and national issues that affect children, youth and caregivers. We've campaigned to overhaul the No Child Left Behind Act, raised funds for student tutorial programs, and supported early education initiatives like Universal Pre-K and Birth and Beyond.

## OUR VALUES AND PURPOSE

Children do not have powerful lobbies, but we have an obligation to help them be heard.

Promise the Children helps volunteers advocate for and with young people. We give special priority to initiatives that promote the well-being of low-income children and youth.

## WHAT YOU CAN DO TO HELP

Sign up for our monthly action alerts and follow us on social media to stay informed of key issues affecting our children.

You can also support us by contacting your legislators, attending events and workshops, volunteering your skills and experience, or making a donation on the Promise the Children website.
